**HIGH VALUE INVENTORY
 INVENTORY OF ITEMS VALUED
 IN EXCESS OF \$100 PER POUND
 PER ARTICLE**

ORDER FOR SERVICE NO.		

All items included in your shipment that are considered to be of extraordinary (unusual) value must be specifically identified and the carrier must be advised that they are included in the shipment. Items of extraordinary value are defined as those having a value greater than \$100 per pound. Typical household goods items that frequently have a value in excess of \$100 per pound per article are: currency, coins, jewelry, precious metals, precious or semi-precious stones or gems, gold, silver or platinum articles including silverware and service sets, china sets, crystal or figurines, fur or fur garments, antiques, oriental rugs or tapestries, rare collectible items or objects of art, computer software programs, manuscripts or other rare documents. Of course, other items may also fall into this category and must be identified as well.

The purpose of this inventory is to assist you in identifying articles of extraordinary or unusual value so that the carrier will be aware of those items that require special handling and protection. Failure to identify such articles will result in limited carrier liability. This form must be presented to the lead packer before packing begins for carrier packed high value items and to the van operator before loading begins for non-packed or owner packed items. Owner packed cartons containing high value items must be left open for the van operator to view and seal.
